Quantum Project Manager - QuickBooks Integration

In the contracting business, streamlining your weekly reporting, billing, and project management is an excellent opportunity to reduce costs and improve efficiency. Many companies in the construction industry are using QuickBooks to automate some of their accounting and bookkeeping functions. Quantum Software Solutions offers solutions that can be used independently, but also leverage your investment in QuickBooks giving you the added functionality you need while reducing duplicate data entry. The Quantum Project Manager integrates with QuickBooks Pro, Premier, or Enterprise version 2003, 2004, 2005, 2006, 2007, 2008, 2009 & 2010 including Contractor and Accountant Editions. The Contractor Billing program posts invoices to QuickBooks and the Certified Payroll Reports program imports timesheet and paycheck information. You can also import customer and vendor information as well as some project information.
